CAREER / PROFILE

- A **Results-oriented and seasoned Front End Developer with over 7+ years of extensive experience** in designing, developing, and maintaining dynamic, responsive, and scalable web applications.
- **Experience in working on Real Estate, CRM, Banking, and Automotive domain projects**
- Seeking a challenging position to leverage my technical skills and leadership experience in driving the success of web development initiatives.

PROGRAMMING SKILLS

- **Front End Stack: React Js, Next Js, Typescript**, HTML, JavaScript (ES6+/ES8), jQuery, XML, PHP, JSX, AJAX, DOM, ESLint.
- **Styling ,UI/UX Tools:** CSS, SASS, Bootstrap,**Styled Components, Tailwind CSS -(Flexbox, Grid), Figma**, WordPress, Material UI, PrimeReact UI, Kendo UI, Chakra UI.
- **React Tooling:** Redux-Saga, React Hook Form, Formik, Yup, Zod, React Query, Webpack, Zustand, Babel, RESTful APIs, JSON, D3/Highcharts.
- **Testing/Debugging Stack:** Jest, **React Testing Library** (Unit testing, Snapshot testing, and Integration testing), Enzyme. React DevTools, Profiler
- **Software Development Tooling:** JIRA, Confluence, Agile, Scrum- methodology, TDD, SOLID, MVC.
- **Version Control Tools:**Git/Github, TSF.

EXPERIENCE

ValueLabs LLP (1Y 11M) Technology Analyst(Bond-B1)

Client: Cox Automotive Feb 2022 - Present — **Project:** NSP and EAP — **Team Size:** 23

- Analyze and optimize existing systems, recommending improvements in technology stacks to drive efficiency and maintainability.
- Implement and maintain efficient and reusable front-end components, contributing to a modular and scalable codebase.
- Collaborated with cross-functional teams to gather requirements, design user interfaces, and integrate RESTful APIs, showcasing strong communication and teamwork skills.
- Wrote unit tests using Jest and React Testing Library, resulting in improved code quality and reduced bugs in production.
- Ensured cross-browser compatibility and responsiveness, providing a consistent user experience across a wide range of devices and browsers.
- Created comprehensive technical documentation for the project, including architecture diagrams, component documentation, and API specifications.

Infosys (2Y) - Technology Analyst(PL-4)

• **Client:** HSBC Oct 2020 - Feb 2022 — **Project:** GPB Staff Payments — **Team Size:** 13

- Implemented responsive design principles, enhancing the application's accessibility and usability across various devices and screen sizes.
- Played a key role in the application's evolution, adapting to changing requirements, incorporating user feedback, and continuously improving functionality through agile development methodologies.
- Integrated the front end with RESTful APIs for seamless communication with backend services, ensuring efficient data exchange and real-time updates.
- Mentored junior developers, fostering a collaborative and innovative team environment. Guided best practices, code reviews, and continuous learning.

- Successfully managed complex state using Redux-Saga, ensuring a smooth and predictable flow of data throughout the application.
- Developed reusable and maintainable React components, adhering to best practices and design patterns for a consistent and efficient codebase.

● **Client:** Movement Mortgage Feb 2020 - Sept 2020 — **Project:** Retail Lo **Team Size:** 25

- Developed highly interactive and visually appealing user interfaces, collaborating closely with UX/UI designers to implement designs prioritising user experience.
- Led the architectural design and implementation of the front-end UI, ensuring scalability and maintainability for future enhancements.
- Implemented code-splitting techniques using Webpack to optimize the loading of application bundles, enhancing the overall performance and user experience.
- Implemented the Error-Boundary component to handle the errors without breaking the application.

India Property Cart (3Y 9M) Front-End Developer

● Jun 2016- Jan 2020 — **Project:** SPA to generate sales for real estate projects — **Team Size:** 10

- Designed more than 20+ SPA considering Cross-Browser Compatibility with mobile-first development approach.
- Analyzed the organization's content and simplified the user experience, making access to the vast amount of information on the site intuitive and easy, reducing development time by 30
- Spearheaded the architectural design of the ERP system, choosing React.js as the core frontend library and defining a scalable and modular component structure.
- Implemented performance optimization strategies, significantly reducing page load times and improving overall platform responsiveness.
- Integrated and configured essential plugins to enhance website features, including SEO optimization, contact forms, and social media integration.
- Ensured a responsive design for the website, making it accessible and user-friendly across a variety of devices and screen sizes.

EDUCATION

- **JSPM ICOER, Wagholi, Pune.**
Bachelor's of Engineering in Computer Science

University of Pune
Aug 2013 - May 2016
